2024/5573/P	Mark and Anna Mirecki-Reiner	08/01/2025 15:31:51	APP	Good afternoon, We understand an appeal has been made regarding the garden room at the above address. We remain of the same opinion as before that absolutely no authorisation should be given to build such a structure in a garden of this size and in the row of houses adjoining each other. There is no precedent for this in any of the surrounding gardens. It strikes us as against the environmental standards we should be preserving in the conservation area which we understand most of Highgate is included. The gardens would certainly be spoilt with such structures..
