2024/5548/P	Sylvia Dal	09/01/2025 19:06:42	OBJNOT	<p>We live in Langdon House and look out at this building. Over the past few years several rooftop terrace areas have been granted and they have proven to be very noisy as the sound travels far. For that reason we do not like the idea of more of these rooftop terrace areas.</p> <p>For the same reason of noise pollution, we would not be happy to have a plant installed so close to our building (It's just 15m away!), especially if it generates more noise in the evening/night when it finally gets quieter in this area. The market, takeaways and restaurants creates enough noise during the day and early evening.</p> <p>Also the look of a plant on top of the building is not aesthetically pleasing to the eye. We already have to look at the mobile phone antennae on the adjacent building (which also looks ugly)!</p>
