

I understand that a planning application has been made to install a dormer window to 43 Twisdon road. This information was conveyed to me by a resident of Twisdon road. This property is to the rear of mine, 46 Chetwynd road, and therefore will overlook my house.

I understand that planning application notices have been attached to lamp posts in Twisdon road but not Chetwynd road. It is therefore unlikely that residents of neighbouring properties will be aware of this application like me. This has happened before- to both houses in either side of No. 43.

It is unacceptable that affected residents are unaware of these developments. It cannot be beyond Camden planning department to mail shot the (very few) houses neighbouring these properties.

Kind regards

Paul Irving
46 Chetwynd road
