2024/5792/P	Gerry Wong	13/01/2025 13:57:48	SUPPRT	<p>I am Gerry Wong and I am over the age of 50 and have been a member of our church for over 20 years. I have also served as a steward at our church for the previous 6 years.</p> <p>I wholly support the redevelopment of our church because the current building does not have enough internal space, it is old, not energy efficient and cost a lot of money to repair and maintain.</p> <p>The redevelopment of our building which will increase the internal space and modernize it, will surely benefit future generations in the years to come and I believe it will bring a lot of positive benefits to the local community, and to Kings Cross because of its location.</p> <p>Our church is here so that everyone of all ethnicities can come here to worship or to visit , seek the relevant help and support and the redevelopment will mean we have a new church building which is fit for its purpose for many more years to come.</p> <p>I hope that Camden Council understands our wish to redevelop, will approve and give the go ahead for the redevelopment of Kings Cross Chinese Methodist Church.</p>
2024/5792/P	Lai Han Chong	13/01/2025 15:28:05	SUPPRT	<p>I am a member of the Chinese Methodist Church in King's Cross, London. I support rebuilding the church. Here are the reasons:</p> <ol style="list-style-type: none"> 1. Now I live in Watford. I have been living in the UK for two and a half years and have been worshipping in The King's Cross Methodist Church for two years. As a member of the Hong Kong Methodist Church before, I hope to continue my worship in this Methodist Church which is the closest to my home. 2. This church has a history of 200 years. As both its appearance and interior facilities are very dilapidated, it is in urgent need of reconstruction. 3. I know that after the reconstruction, the church will have more advanced facilities, especially elevators, which will be convenient for me, an aged person as well as a lot of other elders. 4. The reconstructed church will get more space to cope with the increasing church members. 5. The church will have more space for nearby residents and passengers to rest or have a cup of coffee.

2024/5792/P	Lau Yuk Ching Freda	13/01/2025 12:39:06	SUPPRT	<p>I moved to London from Hong Kong 3 years ago and have been attending the Sunday worship at the King's Cross Methodist Church from then till now. I strongly support the extension project of the Church as I can see the growth of the church in the past few years.</p> <p>The area of the ground floor which is being used for worshipping is getting crowded, particularly during joint worships when English, Mandarin and Cantonese sessions gather together.</p> <p>The lower ground floor is also very packed when people sitting together having tea or meals. The existing layout is also quite dangerous to elderly, children and people require special needs on movement. The staircase makes these people sometimes very hard to access the area.</p> <p>It is foreseeable that the extension would definitely be a better place and could accept more people who are physically and spiritually in need.</p>
2024/5792/P	Man Chiu Tam	13/01/2025 15:12:59	SUPPRT	<p>As a member of King's Cross Methodist Church, I support the redevelopment project. Although I live in Watford, I regularly attend the worship services here as I travel to this church very conveniently. This redevelopment will bring us a larger hall to accommodate the growing number of attendants as long as the historical outlook of the church will be preserved. I expect the improved facilities of the church will provide a suitable meeting place for the local community. In the long run, the enhanced church will benefit the members and the neighbors. I anticipate the council to approve the project so that we shall enjoy the new environment with our local community.</p>
2024/5792/P	Sherene Wong	13/01/2025 13:40:04	SUPPRT	<p>My name is sherene Wong, I'm a member in kings cross over 20 years. I support the redevelopment of our church because our current building is over 200 years, and it needs a lots remedial work. And is very expensive to maintain and in it's current state. In my opinion, the best sensible solution is to redevelopment the building, so that is in the future more energy efficient and bring down the cost of maintaining the building. We also want to plan ahead for future generations. And also for the benefit of local neighbourhood of kings cross to have a new church, that is fit for purpose., for people to come here to worship or to visit, and to seek help and support.</p>
