Every time I come to attend the worship service, I find the accessibility is quite a problem. In looking forward to the new enhancement, I shall come and go carefreely. Moreover, I expect the hall will be much warmer in the winter time as the current heating system is not energy efficient. I love the outlook of our church and it will be preserved. In recent years, the number of attendants has been growing rapidly and currently the hall has been overcrowded during worship services. The growing development of our community will induce more neighbors to come for religious communication. Your prompt approval will ease the christianity demand.</p>
