Biodiversity net gain Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development. Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required. Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply? Yes **⊘** No Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope. If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption). You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one Reason biodiversity net gain does not apply: Retrospective planning permission Please justify the reason why biodiversity net gain does not apply: The proposed development is retrospective in nature, and no new equipment or materials will be installed that could impact biodiversity. As the development does not involve any changes to existing structures or introduce new features that could affect the local environment, the requirement for biodiversity net gain does not apply in this case. This position is supported by the fact that the current use and condition of the site remain unchanged. Note: Please read the help text for further information why developments may be exempt or not in scope. In light of this refusal, those with an interest in the land have the following options:
Submit a retrospective application for a change of use from Class E to hot food takeaway (sui generis) use by no later than 31/01/2025 (this could potentially be combined with the shopfront application depending on its status of which I'm unsure). Similarly, it cannot be guaranteed that a retrospective application for hot food takeaway use would be approved. OR
Cease use as a hot food takeaway and amend to comply with the lawful use as Class E. Please be advised that as chicken shops are considered sui generis, adding more seating for dine-in orders etc. would not satisfy the requirements of Class E. However if this option is chosen I would be happy to discuss this in further detail and establish a timeline for this to occur.

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
