Dear Sir/Madam

DECISION

Town and Country Planning Act 1990 (as amended)

Full Planning Permission Granted

Address:

Flat C
5 Fordwych Road
London
Camden
NW2 3TN

Proposal:

Installation of two dormer windows to the rear roof slope and two roof lights to the front roof slope

Drawing Nos: Design & Access Statement, A201 A, A202 A, A 210 A, A211 A, A220 A, A221 A, A222 A, A100 A, A101 A, A102 A, A110 A, A112 A.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the

following approved plans: Design & Access Statement, A201 A, A202 A, A 210 A, A211 A, A220 A, A221 A, A222 A, A100 A, A101 A, A102 A, A110 A, A112 A.

Reason: For the avoidance of doubt and in the interest of proper planning.

- 3 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy D1 of the London Borough of Camden Local Plan 2017 and Policy 2 of the Fortune Green and West Hampstead Neighbourhood Plan 2015..

Informative(s):

- 1 Reasons for granting permission:

The proposal involves the installation of two dormer windows to the rear roof slope and two roof lights to the front roof slope. The property is a three-storey dwelling sub-divided into flats, it is not listed or within a conservation area.

It is proposed to erect two small dormer windows to the rear roof slope, the dormers would be set down approximately 0.5m from the ridge of the property and set back 0.8m from the eaves. The left hand dormer window would be set in 1.2m from the side boundary of the roof and the right hand dormer would be set in 0.5m. The dormers have been sited so that they are in line with the windows on the rear elevation below and therefore retain the window hierarchy of the building. The dormers themselves would each measure approximately 1.3m wide, 2.0m high and 2.6m deep. They would be finished in tiles to match the existing roof with a felt flat roof and lead flashing to the eaves.

It is also proposed to install two rooflights on the front roofslope. These are sited so as to appear symmetrical on the roofslope.

The rear dormers' siting, materials, design and scale ensures that they do not appear as a dominant addition at roof level. The design of the proposed dormer windows is therefore not considered to be to the detriment of the character or appearance of the dwelling or streetscene. The dormer windows would not give rise to any additional overlooking concerns due to the distance between the rear of the property and the nearest facing properties to the rear being approximately 35 metres away. Due to the nature of the external works, it is considered that the proposal would not result in any harm to amenity of neighbouring occupiers.

No objections were received prior to the determination of this application. Fortune Green and West Hampstead Neighbourhood Forum were notified but did not comment.

The planning history of the site and surrounding area were taken into account

when coming to this decision.

As such, the proposed development is in general accordance with policies A1 and D1 of the Camden Local Plan 2017 and Policy 2 of the Fortune Green and West Hampstead Neighbourhood Plan 2015. The proposed development also accords with The London Plan 2021, and the National Planning Policy Framework 2024.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 3 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
- 4 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at www.camden.gov.uk) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

5 Biodiversity Net Gain (BNG)

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition ("the biodiversity gain condition") that development may not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- (b) the planning authority has approved the plan.

The local planning authority (LPA) that would approve any Biodiversity Gain Plan (BGP) (if required) is London Borough of Camden.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These are summarised below.

Based on the information available this permission will not require the approval of a BGP before development is begun because the planning permission is a minor application within exemption threshold.

If the onsite habitat includes Irreplaceable Habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements.

The BGP must include, in addition to information about steps taken or to be taken to minimise any adverse effect of the development on the habitat, information on arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat.

The LPA can only approve a BGP if satisfied the adverse effect on the irreplaceable habitat is minimised and appropriate arrangements have been made for the purpose of compensating for any impact which do not include the use of biodiversity credits.

If planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 and a BGP was approved in relation to the previous (parent) planning permission ("the earlier BGP") there are circumstances when the earlier BGP is regarded as approved for the purpose of discharging the biodiversity gain condition subject to which the section 73 planning permission is granted.

6 + Irreplaceable habitat:

If the onsite habitat includes Irreplaceable Habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements. In addition to information about minimising adverse impacts on the habitat, the BGP must include information on compensation for any impact on the biodiversity of the irreplaceable habitat. The LPA can only approve a BGP if satisfied that the impact on the irreplaceable habitat is minimised and appropriate arrangements have been made for compensating for any impact which do not include the use of biodiversity credits.

++ The effect of section 73(2D) of the Town and Country Planning Act 1990

If planning permission is granted under section 73, and a BGP was approved in relation to the previous planning permission ("the earlier BGP"), the earlier BGP may be regarded as approved for the purpose of discharging the biodiversity gain condition on this permission. It will be regarded as approved if the conditions attached (and so the permission granted) do not affect both the

post-development value of the onsite habitat and any arrangements made to compensate irreplaceable habitat as specified in the earlier BGP.

++ Phased development

In the case of phased development, the BGP will be required to be submitted to and approved by the LPA before development can begin (the overall plan), and before each phase of development can begin (phase plans). The modifications in respect of the biodiversity gain condition in phased development are set out in Part 2 of the Biodiversity Gain (Town and Country Planning) (Modifications and Amendments) (England) Regulations 2024.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with the National Planning Policy Framework. The council publishes its adopted policies online, along with detailed Camden Planning Guidance. It also provides advice on the website for submitting applications and offers a pre-application advice service.

You can find advice about your rights of appeal at:
