|-----------------|-----------------------|---------------------|----------|---|
| 2024/5777/P | Martin Sheppard | 19/01/2025 20:47:14 | OBJ | I strongly object to this development, which is oppressively close to other properties. |
| 2024/5777/P | Irene Zimmerman | 18/01/2025 17:18:50 | COMMNT | Please save this property! |
| 2024/5777/P | DANIELA DEIAS | 19/01/2025 19:46:30 | COMMNT | This planning permission should NOT be granted. |
| 2024/5777/P | Alice Paucker Perlman | 17/01/2025 16:27:34 | COMMNT | The application for the extension proposed for 29 Oval Road is unacceptable and must be rejected on several grounds. First, the construction of the extension would place the historically important and irreplaceable Hilde Holger archive, which is housed next door at 27 Oval Road, at great risk. The archive, which is of great value to the history of dance, contains many fragile works on paper from the 1920's that could be damaged or destroyed by dirt and vibrations. Additionally, the loss of natural light that would result from the proposed extension would render it impossible for the archivist to do her work, which has been made so much more challenging by the loss of light from the Centric Close development (for which she had to be compensated). Finally, the Centric Close development behind 27 Oval Road has already caused major cracking, and tunneling, and digging in connection with the HS2 poses a further threat. Accordingly, the digging and piling that would result from the proposed two story extension of 29 Oval Road poses an intolerable additional risk to 27 Oval Road. This area was never intended to be overdeveloped in this way. While the extension may be desirable for the residents of 29 Oval Road their plan cannot be permitted to threaten the property and activities of the their neighbor(s). The council should exercise its authority under Article A4(D) to preserve the well being of the area by denying or removing the application. PS I should note that although I live in New York, I visit Oval Road three or four times a year. Through these visits I have been privileged to meet and get to know Primavera Bowman and to learn about the Hilde Holger archive. |
| 2024/5777/P | Dr Marion Kant | 17/01/2025 12:39:10 | COMMNT | Over the past years, I have been helping Ms Primavera Bowan to preserve and organise the Hilde Holger archive. Due to the developments at the back of the property over the past years, it is already quite dark in the lower floors and we had to carry delicate documents to the upper floors to work on them. But with an even greater reduction of natural light from the planned annex of no 29, work in the downstairs floors would be even more heavily impaired. Consultations and study of the archival documents and materials undertaken by visitors would suffer. For that reason, the application should be rethought and redesigned. |
| 2024/5777/P | Szilvia Varnai | 18/01/2025 08:21:08 | OBJ | Ms Boman will significantly suffer from the loss of daylight as the outcome of the 29 Oval Road extension, in her ground and lower ground floor rooms. |
