Attention of Miriam Baptist

This application should be refused on the basis that it facilitates the improper use of the door giving access to use the modified roof space to be used as a terrace by current or future occupiers.

I also object to the fact that this possibility will provide a view of our garden at this house in contravention of the requirements of section 2 of Camden Planning Guidance | **Amenity** | which is attached. Our garden is within the 18m distance for consideration.
