2024/5792/P	Gloria Hii	27/01/2025 22:16:32	SUPPRT	<p>I am a long-time member of King's Cross Methodist Church for over 10 years, and I am writing to express my strong support for planning application 2024/5792/P. The proposed redevelopment will bring much-needed improvements to the church's facilities, allowing for a wider range of community events that will benefit people from all walks of life, from families to vulnerable residents. This project aligns with both the church's mission and I believe the council's vision of fostering greater integration with the surrounding neighbourhood, encouraging valuable interaction between the church and local community.</p> <p>At present, the church faces a shortage of meeting space, limiting the frequency and variety of events we can host. Having been involved in many events over the years, I can clearly see the positive impact this redevelopment will have, enabling the growth of more activities and programmes through the reconfiguration and addition of space. Additionally, I have witnessed firsthand how the building offers a welcoming environment for students residing in the accommodation above, providing both housing and a sense of community for those new to the city.</p> <p>King's Cross Methodist Church is not only an important historical landmark but also occupies a key position within London. The proposed redevelopment will not only preserve its heritage but also equip it towards a resilient future.</p> <p>I wholeheartedly support this proposal and hope the council will too. Thank you for considering my comments, and for taking the time to read this.</p>

2024/5792/P	Matthew Tong	26/01/2025 22:17:46	PETITNSUP P	King's Cross Methodist Church has had a long history of serving people and Christians in the wider London area. As the building is getting old and the continuing use of facilities in the property may pose inconvenience or even danger to the users and can even be unsafe.  The church helps and provides services for people of all walks of life, particularly those who have newly arrived in London to adapt to their new environment, notably people of Chinese ethnicity and students.  I support their planning application which is long overdue.
2024/5792/P	Lea Lau	27/01/2025 12:17:12	SUPPRT	I am an attendee of the church for more than a decade and strongly support the proposed planning application. I have first handedly seen the efforts put in by church and its members to improve the well-being of its surrounding residences, international students and all those who seek community support. However the church is in desperate need for an upgrade to be made more accessible so as to be more inclusive to all users and visitors. The church is also a hub for community events and voluntary efforts ie warm hub for local residences and shelter for homeless during winter. There is also a strong need to improve the energy rating of the space to ensure sustainability. The current internal space requires modernisation to ensure full use of space and to prevent overcrowding during events.
2024/5792/P	Helen Everett	24/01/2025 09:14:27	INT	Old architectural building, so it now needs reconstruction to open up more spaces to accommodate the expanding population to come together to have fellowships and give supports to the vulnerable.

Sometimes we find it difficult to accommodate all the people coming to the church. Besides, we need more space for children to attend Sunday school and to organise various activities in the church. That's why we are hoping to get the permission for the extension to be done promptly.
