re: 2025/0133/T 2 Millfield Place

We note that your end date for consultation is the same as your registered date but we would like to draw your attention to the Highgate Neighbourhood Plan DH6 Front boundaries IIunnecessary removal of mature hedges or natural features which have a positive impact on the character of the local area.

The removal of this mature, if unmanaged tree would be to the detriment of the local area and the Conservation Area. A replacement tree should be planted.

It may also be of interest that we have photos from last February showing that several trees in the front garden have been felled (including this one?). However replacement trees have been planted. It could be that the applicant is just trying to regularise the situation.
