

*Journey through the estate  
to explore the area's past,  
present, and future.  
Discover 10 artist's projects,  
created in collaboration  
with residents, across  
the estate.*

The Story Trail is inspired by local histories and a very old, much-loved London Plane Tree in Clarence Gardens, imagining all the stories it could tell...

Developed through community participation since 2021, the project has been conceived, shaped and curated by residents as part of Community Champions Regent's Park.

In 2024 and 2025, the commissioned artists, Neighbourhood Curators, producing team, and other local groups engaged with hundreds of residents in over 60 creative workshops and events across the estate, recording over 1,600 attendances to help develop the artworks.

Experience the Story Trail as a loop by following the numbers – or create your own journey.
