Description of the Proposal

Please note in regard to:

- Fire Statements From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. <u>View government planning guidance on fire statements</u> or <u>access the fire statement template and guidance</u>.
- **Permission In Principle** If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- Public Service Infrastructure From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or <u>view government planning guidance on determination periods</u>.

Description

Please describe details of the proposed development or works including any change of use

Construction of a new rear extension, and a new front access gate for the flat at 12C Maygrove Road at the lower ground floor.

i) A rear lower ground floor extension built differently:

We propose to have a short extension behind the existing rear closet wing to the building. This extension would not be visible from the street and it will be finished with brick with a new double sliding glass door with aluminium frame. Additionally, it is proposed to have a skylight above this part of the extension.

Additionally we propose to have an extension to the other half of the rear elevation, which is kept 1m behind the rear elevation line of the brick extension referred to above. This extension has fully glazed elevation with a hinged glass door in aluminium frame and fixed glazing next to it. It is similar to a conservatory- with a glazed pitch roof which goes down to the boundary wall. There will be a new brick wall built 50mm away from the garden fence, to support the new extension structure.

The proposed extension would not be visible from the street. There will be no impact on the local facilities and amenities as no additional units will be added to the property.

The proposal does not result in an increase of the number of occupiers and therefore there would be not additional car parking demands. The proposed skylights would allow for extra light during daytime and the evening for the owner. The extension does not alter the quantity of daylight received by the neighbouring properties.

ii) New front gate:

Has the work or change of use already started?

It is proposed to create an opening in the parapet wall at the front of the property to install a new metal gate in order to provide direct access to the bin area for all occupants of the building. This will also enhance the amenity of the lower ground floor flat by eliminating the need for the existing access route, which currently passes in front of their window. The new metal gate will match the existing gate in material and finish.

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.
Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.
Your local planning authority will be able to advise on the content of any assessments that may be required.
Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development. Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required. Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply? Yes ⊗ No Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope. If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption). You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one Reason biodiversity net gain does not apply: Development subject to the de minimis exemption (development below the threshold) What best describes the size of your site?: Over 25 square metres Please justify the reason why biodiversity net gain does not apply: No existing trees and hedgerows will be removed Note: Please read the help text for further information why developments may be exempt or not in scope. **Open and Protected Space** Please note: This question is specific to applications within Greater London.
