2025/0483/T	S. Nix	05/02/2025 09:59:51	OBJ	Can proof be provided, please, for the 'disease' mentioned regarding the pear tree (T4)? It is hard to tell given that the photos appear to be taken in the winter (currently?), so proof that the tree is actually diseased or in bad shape should be provided. All the trees look the same in the photos. Thank you.
