

Application No:	Consultees Name:	Received:	Comment:	Response:
2024/5808/P	Pinal Patel	06/02/2025 12:43:23	OBJ	I object to this application for all the same technical, architectural and aesthetic reasons my neighbours have. I object even more to the fact that this company is inflicting untold stress and stealing our precious time by hounding us repeatedly!! It's a type of corporate bullying of the common people and it should not be allowed!! These are our homes and we should have a right to decide what should and should not be installed on them. A NO means NO!!! Let this be the final decision and no more attempts to make an application be allowed.
2024/5808/P	Benjamin Ackland	06/02/2025 12:48:38	OBJ	I am in full agreement with my wife who's opinion is: "I object to this application for all the same technical, architectural and aesthetic reasons my neighbours have. I object even more to the fact that this company is inflicting untold stress and stealing our precious time by hounding us repeatedly!! It's a type of corporate bullying of the common people and it should not be allowed!! These are our homes and we should have a right to decide what should and should not be installed on them. A NO means NO!!! Let this be the final decision and no more attempts to make an application be allowed."
2024/5808/P	Jude Ackland-Patel	06/02/2025 12:53:18	OBJ	I agree with my mother who's opinion is: "I object to this application for all the same technical, architectural and aesthetic reasons my neighbours have. I object even more to the fact that this company is inflicting untold stress and stealing our precious time by hounding us repeatedly!! It's a type of corporate bullying of the common people and it should not be allowed!! These are our homes and we should have a right to decide what should and should not be installed on them. A NO means NO!!! Let this be the final decision and no more attempts to make an application be allowed."
2024/5808/P	Mariana Larcher	06/02/2025 22:06:58	OBJ	I object once again to this proposal, and to the intrusion, buzzing and visual changes that such installation would bring about to the building.
