Letter of objection to 2025/0204/T - the proposed felling of a perfectly healthy tree at the Duke of Hamilton Pub.

I object strongly to the above application.

Most mature Ash trees have resistance to Die Back Disease.

This tree affords really important privacy & character to what is a dreadful pub. The landlords have no need to remove it. The tree has been there for a 100 years and is the subject of a TPO & poses no danger to anyone - it is total vandalism to take it down.

The pub is filthy run down and underinvested. It is an eyesore. The windows are rotting, the paint peeling & the awning a filthy eyesore. The cost of getting the tree regularly pruned is the real reason they want to get rid of it. The tree provides beauty & privacy.

For once can Camden do their job and protect a tpo tree & listed buildings & the amenity of residents?

Yours
