I am writing to register my very strong objections to the above planning proposal to place mobile phone masts on top of the Crestview flats building at the top of Dartmouth Park Rd where it meets Dartmouth Park Hill.

I object as that building is in the Dartmouth Park Conservation Area and the proposed masts are grossly inappropriate for such a conservation area.

Right opposite Crestview is the listed church of St Mary's Brookfield whose attractive exterior will be scarred by the presence of phone masts on Crestview.

Also from the Hampstead side of Hampstead Heath the view in the distance of masts atop Crestview will be a blemish on the skyline.

The view from my own address at the top of Dartmouth Park Rd will also be damaged by the proposed masts.

Anne Skinner
