2025/0329/P	Paul Irving	14/02/2025 17:51:48	COMMNT	<p>Having looked at the plans it appears that although the increase in height of the proposed extensions will create a uniform profile as stated in the application, the windows are larger than those in the adjacent property extensions, and in my opinion would be potentially intrusive in that they would produce direct views into my house which is to the rear of NO 41/43.</p> <p>In addition, there appears to be in the plans provision for large roof skylights which may result in excessive light pollution at the rear of my house. I would therefore object to both these features in the planning application</p>
