Biodiversity net gain Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development. Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required. Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply? Yes **⊘** No Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope. If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption). You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one Reason biodiversity net gain does not apply: Development subject to the de minimis exemption (development below the threshold) What best describes the size of your site?: Under 25 square metres Please justify the reason why biodiversity net gain does not apply: No priority habitat affected Note: Please read the help text for further information why developments may be exempt or not in scope. **Open and Protected Space** Please note: This question is specific to applications within Greater London.
