11B Bramshill Gardens, London NW5 1JJ

To Stephen Samuel

Dear Stephen

I would like to replace the rear window in my flat, 11B, in order to improve insulation and replace the wooden sill.

I have had a preliminary conversation with Camden Council Planning with a view to replacing 'like for like' with a different material. This would require their consent as we are in a conservation area. I attach the specification for an aluminium window which I believe would meet their requirements.

Would you be willing to give approval for this proposed change, subject to confirmation of the final specification.

Kind regards

Martin Bould
