

Attention: Jaspreet Chana,

My wife and I live on the second floor of Blair Court flat 10. We would like to lodge our objections to the above planning application to build 6 storage units at the back of our building which would be right below our flat.

Our main objections, there are rights over the breach of deeds over this land, the fire exit door from the car park would be blocked or at the very least restricted, there is the possibility because of the proximity of the units and the walls of the garage for people to lurk there and this is a security risk, some of us recall that the door from the car park used to have a recess and people were lurking there at night so the door was moved forward to stop this.

There is also the fact that these are storage units – Blair Court is known as a high end building not an industrial site and we do not need vehicles coming round the back of the building night and day loading and unloading and leaving whatever rubbish.

With kind regards

Mousadek M. Soussi
