

Dear Planners,

The Belsize Society received a phone call from the next door neighbour of this development application property 37A Adamson Rd.

He is very concerned at the increased height of this extension over the existing boundary wall. He says he was told by the developer it would be no higher than the wall and was content with that but now finds it will be 93cm above the boundary wall which causes him concerns about light and visual intrusion.

The expiry for comments has passed and he is worried about giving his name in an objection to the neighbour.

I said I'd pass on his concerns and hope you might take account. The Belsize Society has already objected to the application.

Many thanks.

Yours faithfully,

Alan Selwyn
