# About the role

We expect our legal staff to embody the characteristics and qualities of an O-Shaped Lawyer (detailed below) and to be active in reflecting these values across our teams and with our “client” services.

Camden is building somewhere everyone can thrive, by making our borough the best place to live, work, study and visit. Because, we’re not just home to UK’s fast-growing economy we are much more. We’re home to the most important conversations happening today. Through our mission led approach we’re making radical social change a reality, so that nobody gets left behind. Here’s where you can be part of a progressive legal team, exploring the art of the possible to unblock barriers and ensure Camden is a place that works for everyone.

Our We Make Camden and The Way We Work strategies set out a compelling vision for an organisation that moves beyond a bureaucratic approach to a way of working focused on relationships, embracing innovation and valuing people. Legal Services, and Corporate Services more generally, is in the process of adapting its model to support this shift. We are looking for a Lawyer to support the delivery of some of the Council’s top priorities by delivering a high-quality customer focused legal service. Our in-house legal team plays an essential part in the achievement of the objectives of Camden Council. As a service, we strive to provide a high-quality professional service that meets our client’s expectations as well as ensure compliance with professional standards as an in-house legal practice. You will be a valued member of a lively, responsive, and supportive team delivering essential advice to clients and providing representation in diverse and interesting cases across the Council

We embody the values of the O-shaped lawyer of operating with openness, optimism and originality.

## The O Attributes

Rather than keeping the organisation ‘safe’ we are part of a 21st century legal profession that is animated by principles of social justice and works to solve problems rather than provide advice or support compliance as its default. We are clear that it is not about either but about being able to do both.

We embed ourselves in our client services, forming strong collaborative relationships from the outset which helps us to act early and prevent unnecessary escalation. As a service, and as individuals, we are visible across the organisation and are trusted advisers for both senior officers and Members.

This role requires you to be comfortable working with a high degree of personal responsibility and independently when required. You will be encouraged to think creatively and contribute to re-shaping how we think about risk and governance for a 21st digital-era organisation. You will be thoughtful about a modern legal profession and its role in local public services, contributing to a dialogue about how it responds to the implications of We Make Camden and The Way We Work.
