If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application. The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- Yes, on the development site
 Yes, on land adjacent to or near the proposed development
 No

b) Designated sites, important habitats or other biodiversity features

- Yes, on the development site
- Yes, on land adjacent to or near the proposed development
- No

c) Features of geological conservation importance

- Yes, on the development site
- Yes, on land adjacent to or near the proposed development
- No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- Yes
- No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The site is below the threshold required as there is no existing on-site habitat's or linear habitats.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

1. DESIGNANDHERITAGEISSUES

The pre-application follows the recent refusal on site for the erection of a roof extension. This new design matches the neighbouring structure at number 33 in both design and scale. Because of this the scale and design are considered acceptable and ensures the extension has not just a relatively low impact on the listed building but also surrounding conservation area and neighbouring listed buildings.

The proposal appears unlikely to be visible from surrounding public views. Given the presence of the existing structures and extent of existing decking in this roofscape, it is considered that the proposed structure will not cause additional harm.

No demolition of historic fabric would be required, with the existing aperture being re-used, which is supported. The use of render to clad the extension is also supported however, the roof of the new structure should be of a traditional metal material.

The roof itself is already in use as a roof terrace and the proposal appears unlikely to increase the prominence or intensity of this use.

Discussions on site confirmed the applicant was interested in replacing the timber decking which, in principle, is supported providing the replacement is similar and has a low impact.

Overall the proposal is acceptable from a design and heritage perspective and complies with D1 and D2 of the Local Plan.

2. NEIGHBOURINGAMENITY

Policy A1 seeks to protect the amenity of Camden's residents by ensuring the impact of development is fully considered. It seeks to ensure that development protects the quality of life of occupiers and neighbours by only granting permission for development that would not harm the amenity of neighbouring residents. This includes privacy, outlook and implications on daylight and sunlight. This is supported by the CPG Amenity.

In terms of amenity, to the front the extension would not impact any amenities as this continues the existing arrangement. Because the building follows a similar scale of the building at no. 33 there would be no impact on this side and because of the end of terrace nature and lack of visibility there would be no impact to the other side either. It is not considered that neighbouring properties would be unduly affected due to noise.

4

Therefore the proposal complies with policy A1 of the 2017 Camden Local Plan and the Amenity CPG.

3. CONCLUSION

It is considered the roof extension on the property is acceptable providing the use of acceptable materials.

This document represents the Council's initial view of your proposals based on the information available to us at this stage. It should not be interpreted as formal confirmation that your application will be acceptable, nor can it be held to prejudice formal determination of any planning application we receive from you on this proposal.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
