2025/0384/P	Michael Feldman	04/03/2025 15:02:29	OBJ	<p>Thank you for making the Daylight survey available to download which I have now scanned and find to be inaccurate. All of the windows on the front elevation of 2 Belsize P M are habitable rooms. The nature of a mews property make these windows especially important. The internal layouts are freely available on the Councils website via a simple search. (PWX0002660) The profile as designed will certainly shadow the facade of No 2 as it is in direct line with the midday sun. I will send a quick photo to demonstrate under separate cover. I believe that the effect could be reduced somewhat by adjusting the ridge line of the proposed roof. The light available to the GF window is critical.</p>
