2025/0899/P	Ruth Tenne	08/03/2025 14:52:43	COMMNT	<p>I strongly object to the proposed plan on the ground that I am disabled and immobile whose bedroom is above the the proposed extension and I would suffer both mentally and physically from the building work and the continued noise thereafter . Moreover, in the past previous owners also planned to have a ,constructed extension , but after a survey it was found that the foundation of the of the property are not strong enough to sustain an added solid/constructed extension to the propety. Furthermore, any extension to the property is likely to cause structural damages to the flat(s) above. My flat suffered from internal damages when a basement was built by the ground floor of No66 GT.Fortunately, the owners (who were also friends) agreed to take care for all the damages - subject to official contract which has been submitted before any work had started. I have not seen any consideration of) I such steps from the new owners to the flat (a sole couple) to whom I initaly expressed my objection to the proposed plan. Nor am I aware for which purpose there is a need to have an extra room/extension to the existing specious flat and its lovely green garden (a commercial /business need?). I would like to submit some further points , but I donot feel well enough to continue with my typing and logging them now. I apologise for any typing mistakes and be most grateful if the Council's pfficer would contact me ASAP to discuss the.</p>
