2025/0484/P	Robert Whitby	10/03/2025 17:15:26	OBJNOT	<p>As a South Hampstead resident I support the redevelopment of this site as I recognise its potential to provide new housing that London desperately needs. My objection regards the plans for the provision of a supermarket in the new development. We currently benefit from a full size Sainsburys and an Aldi. The application states that the Sainsburys alone is currently 7,558 square meters of commercial space. The developers are proposing that in the final development there would be a total of just 2,500sqm of supermarket space. This is totally inadequate especially considering that the development will result in up to 6,000 new residents. The application itself sets out the strength of feeling over the loss of the large Sainsburys and yet the developers have chosen to totally ignore this community feedback. We see time and again new developments in London with the provision of completely inadequate mini supermarkets. I would urge the Council to mandate the provision of a far larger supermarket within the development.</p>
2025/0484/P	Daniel Heuman	10/03/2025 15:03:30	AMEND	<p>The tallest buildings in this development are too tall for the area. Please can you find a way to approve the needed homes and the broad design, but restrict the heights to no more than 8 storeys for any building?</p>
