2025/0894/P	Alan Selwyn	10/03/2025 15:16:25	OBJ	The Belsize Society objects to the disproportionate length of this extension (notwithstanding considerations of GPDO) which more than doubles the depth of the building and extends to pretty much the full extent of the small garden, taking up over one third of the area. This presents an intrusive element for the next door property and some increased shadowing.
