2025/0868/T	Jean Peccei	11/03/2025 12:03:55	OBJ	Strongest possible objection. The tree to be felled is a large healthy tree which contributes greatly to the beauty and restful view in this coservation area. The application provides no evidence whatsoever that the tree *currently* presents an "actionable nuisance" (rather than a possible future nuisance) and thus needs to be completely felled rather than cut back.
