There's two entrances in this area 1. A nursery. 2.The QCCA. I would suggest that a visual survey be done over the course of a week to get an idea of what problems already exist. Apart from the practical application of any of the council's plans I would suggest you spend the money on rounding over the sharp edges to the new planters and erecting signs banning cycling on Thursdays and Saturday [market days] as much as cyclist are part of the community there's no regard for pedestrians. Considering that 70% of the consultation over the LTN objected the GLA and Camden have taken this to a whole new level and still the local people look at all of this in disbelief, general comment what a waste of our money. P,S, Why was the Gospel Oak 7&8 estate not consulted.
