2025/0868/T	Ken Chaney	Flat13 16 belsizegrove Belsizegrove grove nw34un nw34un	17/03/2025 18:58:10	COMMNT	Firstly this tree has been part of the landscape of the garden for many years and would appear to be healthy and no danger to any body.. It houses in its branches many types of wild life and gives excellent shade for people sitting in the garden.I gather belsize Park residents assn have also objected twith a more comprehensive list.of reasons to save tree. Yours truly Ken Chaney.
2025/0868/T	Joanne gamble	16 Belsize Grove Flat 3 London NW3 4UN	17/03/2025 17:03:00	COMMNT	I've been a resident for over 14years at the garden flat 16, I really enjoy looking at this beautiful tree, everyday and seeing the changes of the seasons, also there's so much wildlife that live in poplar tree, there's also chattering away the squirrel have made the poplar tree there playground which is fascinating to watch, I've struggled for many years with my mental health find watching these animals calms my mood, having the polar tree there also blocks the noise of the surrounding busy roads, I would be devastated if I loss the poplar tree, it also provides protection from the hot summer months, also there's flats at the end of the garden which would to look directly into my property & as [REDACTED] woman leaving makes extremely vulnerable, please do not take are beautiful tree, I would be devastated....thank you...
