2025/0868/T	Veronika Kozlova	Ormonde Court, 10-14 Belsize Grove Flat 17 NW3 4UP NW3 4UP	19/03/2025 17:42:22	COMMNT	<p>I am saddened to learn about the potential felling of the Black Poplar tree and wish to formally object to this decision.</p> <p>This tree is an essential part of our local environment, offering numerous benefits:</p> <ul style="list-style-type: none"> - It serves as a natural barrier against noise pollution. - It provides vital shade and shelter for wildlife, including birds, insects, and other animals - especially during the summer months. - Its acts as a visual screen, contributing to the area's aesthetic appeal. - It offers a crucial privacy buffer between residential properties. - As a native species to the Belsize Park Conservation Area, it holds ecological and historical significance. <p>Beyond its practical benefits, this Black Poplar is a beautiful and integral part of the landscape. The justifications for its removal appear unsatisfactory, and I urge reconsideration of this decision.</p>
