Dear Sir/Madam

DECISION

Town and Country Planning Act 1990 (as amended)

Householder Application Granted

Address:
32 Coptic Street
London
WC1A 1NP

Proposal:
Moving existing garage door forwards to fit within existing timber frame surround.

Drawing Nos: PP-423-101; PP-423-201; PP-423-301; 423-A-102

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans PP-423-101; PP-423-201; PP-423-301

Reason: For the avoidance of doubt and in the interest of proper planning.

- 3 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy D1 [and D2 if in CA] of the London Borough of Camden Local Plan 2017.

- 4 Notwithstanding indications on the approved plans, the door shall only open inwards and shall not open outwards over the public highway.

Reason: To minimise danger, obstruction and inconvenience to users of the highway in accordance with policies A1 and T3 of the Camden Local Plan 2017.

Informative(s):

- 1 **Reasons for granting permission.**

The proposal is to move the existing garage door forwards to fit within the existing timber frame surround. The design, size, and material of the proposed door is in keeping with the appearance and character of the host building. Although the doors open outwards, they do not cause unreasonable obstruction because whilst the set-back from the building frontage is reduced, the garage doors are still slightly set back meaning the obstruction will only be around 50cm, and only when the door is in use (unlike a gate which could be left open).

No objections have been received prior to making this decision. The site's planning and relevant enforcement history has been taken into account when coming to this decision.

As such the proposed development is in general accordance with policies A1 and D1 of the London Borough of Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2021.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 3 Biodiversity Net Gain (BNG) Informative (1/2):
The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 ("1990 Act") is that planning permission granted in England is subject to the condition ("the biodiversity gain condition") that development may not begin unless:
(a) a Biodiversity Gain Plan has been submitted to the planning authority, and
(b) the planning authority has approved the plan.

The local planning authority (LPA) that would approve any Biodiversity Gain Plan (BGP) (if required) is London Borough of Camden.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These are summarised below, but you should check the legislation yourself and ensure you meet the statutory requirements.

Based on the information provided, this will not require the approval of a BGP before development is begun because it is a Householder application.

++ Summary of transitional arrangements and exemptions for biodiversity gain condition

The following are provided for information and may not apply to this permission:

1. The planning application was made before 12 February 2024.
2. The planning permission is retrospective.
3. The planning permission was granted under section 73 of the Town and Country Planning Act 1990 and the original (parent) planning permission was made or granted before 12 February 2024.
4. The permission is exempt because of one or more of the reasons below:
 - It is not "major development" and the application was made or granted before 2 April 2024, or planning permission is granted under section 73 and the original (parent) permission was made or granted before 2 April 2024.
 - It is below the de minimis threshold (because it does not impact an onsite priority habitat AND impacts less than 25 square metres of onsite habitat with biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat).
 - The application is a Householder Application.
 - It is for development of a "Biodiversity Gain Site".
 - It is Self and Custom Build Development (for no more than 9 dwellings on a site no larger than 0.5 hectares and consists exclusively of dwellings which are Self-Build or Custom Housebuilding).
 - It forms part of, or is ancillary to, the high-speed railway transport network (High Speed 2).

4 Biodiversity Net Gain (BNG) Informative (2/2):

+ Irreplaceable habitat:

If the onsite habitat includes Irreplaceable Habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements. In addition to information about minimising adverse impacts on the habitat, the BGP must include information on compensation for any impact on the biodiversity of the irreplaceable habitat. The LPA can only approve a BGP if satisfied that the impact on the irreplaceable habitat is minimised and appropriate arrangements have been made for compensating for any impact which do not include the use of biodiversity credits.

+ The effect of section 73(2D) of the Town and Country Planning Act 1990

If planning permission is granted under section 73, and a BGP was approved in relation to the previous planning permission ("the earlier BGP"), the earlier

BGP may be regarded as approved for the purpose of discharging the biodiversity gain condition on this permission. It will be regarded as approved if the conditions attached (and so the permission granted) do not affect both the post-development value of the onsite habitat and any arrangements made to compensate irreplaceable habitat as specified in the earlier BGP.

+ Phased development

In the case of phased development, the BGP will be required to be submitted to and approved by the LPA before development can begin (the overall plan), and before each phase of development can begin (phase plans). The modifications in respect of the biodiversity gain condition in phased development are set out in Part 2 of the Biodiversity Gain (Town and Country Planning) (Modifications and Amendments) (England) Regulations 2024.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with the National Planning Policy Framework. The council publishes its adopted policies online, along with detailed Camden Planning Guidance. It also provides advice on the website for submitting applications and offers a pre-application advice service.

You can find advice about your rights of appeal at:

<https://www.gov.uk/appeal-householder-planning-decision>.

If you submit an appeal against this decision you are now eligible to use the new [submission form](#) (Before you start - Appeal a planning decision - GOV.UK).

Yours faithfully
