Dear Sirs

As a long term resident and former long term business owner in Camden, I am passionate about Covent Garden and Soho. I welcome a lot of the changes in the building structures but also understand the need to preserve parts of that area which make it unique.

I am sure you are busy people and are fully acquainted with the objections to the plans to develop the Odeon excessively as outlined to me recently by the Covent Garden Community Association so can I here simply add my voice to the many objections.

Kind regards

Kim Britton
