Dear Planning  
Re the plan to install outside QC Community Centre  
new ramps and stairs to improve safe pedestrian and cycle movement.

I object to the installation of steps/ stairs, and the removal of the kissing gates.  
This would considerably reduce safety outside the nursery, and in an area where there are a lot of older people.  
Please think again, especially as your plans involve the spending of money, which we are told is very short in Camden.  
Thank you.
