

Application N	Consultees Name	Recipient Address	Received	Comment	Response
2025/0523/P	Ruth Wilson	4 St George's Terrace	29/03/2025 04:35:47	OBJ	I am very concerned about this planning application because of the extensive problems with subsidence suffered by neighbours and myself. This led to the ceiling of our flat collapsing. I had lived with a friend in the flat for several decades and was nursing her as she was extremely ill and subsequently died. These structural problems in the house made things significantly worse and are still not resolved. It is no time to be doing these kind of building works in the impacted houses. I would ask you, on this basis, to refuse the application.
