#### Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

### Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in <u>Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)</u>) would apply?

Yes

⊗ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in <u>The Environment Act 2021</u>: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

#### Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The proposed development involve the replacement of the existing extension. No additional land used.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff (b) an elected member
(c) related to a member of staff
(d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
Do any of the above statements apply?
