2025/1267/P	Michael Harris	65 South Hill Park London	31/03/2025 17:28:03	JUST	At a time when we are trying to increase the number of housing units, why are we allowing flats to be combined? What will this mean for net council tax? Will one unit pay less than the two separate units? This is not an objection per say, but it is a question to the council about the soundness of this policy that seems inconsistent with government and council objectives.
