2025/1242/T	Irritated neighbour	59 Netherhall Gardens	01/04/2025 09:56:45	COMMNT	The building works at 59.5 have been an ongoing nightmare on a site that clearly isn't fit to support the scale of the new development. The years of noise, building dust, road and pavement obstruction have caused immeasurable stress and with no end in sight. Chopping back trees between our property and theirs will only further expose this gigantic replacement dwelling that now overlooks and blocks light from multiple neighbouring properties. How a development of this scale was allowed is beyond comprehension.
