Description of Proposed Works
Please describe the proposed works
6 single-glazed wood windows and one patio door was replaced with wood-styled uPVC and triple glazing. The colours were kept the same, and the same as all of our neighbours (brown externally, white internally). The window style is approximately the same, 3 panes with the outer 2 opening. The patio door style is simple double pane with one sliding, as the prior style was highly bespoke. 1 window was changed from clear to obscured (clouded), 1 was already obscured and kept as such. The property is in a private mews, built in the 1990s, set away from the road. A number of neighbours already have uPVC windows.
To note, the front door was also replaced but with wood, again of the same colour and approximate style, and so while it was part of the work it was like-for-like.
I wasn't aware of the requirement for permission given the material change, this was the first time arranging such works and I assumed that the FENSA building regulation cover was sufficient, and so the work is already completed. This is therefore a retrospective request made since discovering the issue. There was some urgency as both doors were in severe disrepair, leaving the property insecure.
Has the work already been started without consent?
If Yes, please state when the development or work was started (date must be pre-application submission)
