Dear Veta,

**REFERENCE: 9 Parsifal Road**

I write to you in the capacity of Principal Consultant at Arbtech Consulting Ltd.

Further to our previous involvement in the planning application at 9 Parsifal Road, we have been asked to confirm that the current site setting out has allowed for the retention of all existing trees and that no trees need to be removed or replaced due to the proposed new construction.

Trees T1, T3, T9, T13 and T14 originally noted to be felled in Arbtech Tree Protection Plan (Arbtech TPP 01 A) and Arboricultural Method Statement (Arbtech AMS 01 (02)) can now be retained and as such, no replacement planting will be required.

If you have any further questions please do not hesitate to contact me.

Yours sincerely

Jon Hartley BSc(Hons) MArbora
