2024/5482/P	Marcia MacLeod	Flat 1, 31 Dennington Park Road	03/04/2025 10:50:34	OBJ	This proposed extension will alter the smooth and vintage frontage of Holmdale Road. These houses were built around 1900 and present a classic street of the period. To insert a modern extension would damage the nature of the street. In addition, as it looks as though some of the existing garden will be removed, that further decreases run-off in an area which Camden seems to think is a risk of flooding from surface water; any removal of run-off could be detrimental to the area.
