2025/1324/P	Alexander Jan	Flat 5, 10 Windmill St Fitzrovia London W1T 2JE	05/04/2025 13:06:05	OBJ	I oppose this application. Camden should be encouraged to continue in its welcome efforts to be removing all "modern" phone boxes of all types and descriptions and not permitting in the replacement of existing units (or allowing new ones) into the area. There is zero legitimate demand for phone calls from these units; if they are used it is typically for anti-social or criminal related activity. Furthermore, phone boxes whether they are closed or of the proposed design are used for storage of rubbish, drug taking and as toilets. Locating this ugly unit so close to Heals that has been called "a beacon of design on the high street" adds insult to injury. The last thing Tottenham Court Road needs is more of these poorly designed installations.
