2025/1269/P	John	26b Kings Gardens	07/04/2025 21:29:02	OBJ	<p>Strong Objection. Removal of period features with replacements suited for commercial use. Doors do not meet modern access regulations (Access to and use of buildings volume1: Dwellings section 3B). Doors are not suited for residential use.</p> <p>The previous doors I believe were wooden and had a much larger opening which easily accommodated wheel chair access.</p> <p>The building seems to have gone through window renovations, so why the doors didn't follow those windows in looks is beyond me.</p> <p>The council should enforce action on the building to either recover the original doors or replace with suitable ones that mimic the new windows.</p>
2025/1269/P	John	16 Acol Rd	07/04/2025 21:36:07	OBJ	<p>Objection</p> <p>The new doors look very out of place compared to other apartment blocks in the area. E.g. Kings Gardens, Acol Court, Manor Court and others.</p> <p>The doors could have been replaced with similar looking aluminium door types that would mimic the original look and character of the wooden door frames. The current doors look ghastly.</p>
