Subject: 2024/5407/P: comments on Highgate Cemetery planning application

[REDACTED]

Dear Sirs

This planning application has just been brought to our attention via a letter dated 27th March.

I find that a letter being sent to the grave owners and families and residents of Highgate of which I am one, dated more than 3 months after the event and after the closure of objections, unacceptable. Very underhand and duplicitous.

More to the point I fail to see how this hideous building which looks no more than a public toilet to the east side of the Mound has even been given consideration. I fully appreciate that repair work to parts of the cemetery are necessary but erecting buildings on either the east or west side is out of context and not conducive to the environment to which the buildings are intended to be erected.

My late husband is buried in the Mound, and we chose Highgate Cemetery for its peaceful and contemplative surroundings which is reflected in the burial costs charged by Highgate Cemetery. This is a quiet space for family to come and pay their respects.

Not only do I find the building very undesirable and ill designed but find that zero consideration has been given to the grieving families whose loved ones are buried on the Mound. The proposed building on the East of the Mound is very obtrusive and will attract unwanted and noisy traffic. This is without taking into consideration the noise and disruption it will cause during construction.

I am sure the friends of Highgate have well intentions but I very much doubt any of them have any loved ones buried in the Mound or given any thought as to the impact it will have to those that have; If they did, their views would be otherwise.

Had we known at the time when choosing that such planning was even being contemplated, we would have chosen an alternative resting place.

Will await to hear further.

Mrs A Mouzouris
