# **Description of the Proposal**

Please note in regard to:

- Fire Statements From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. <u>View government planning guidance on fire statements</u> or <u>access the fire statement template and guidance</u>.
- **Permission In Principle** If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or <u>view government planning guidance on determination periods</u>.

#### Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

The proposal seeks to convert the existing basement-level conference room area of the Melia White House Hotel into a new swimming pool and spa facility for hotel guests. The intervention will be entirely internal and will not involve any excavation or structural alterations that impact the fabric of the listed building. As such, the historic and architectural significance of the building will be preserved.

The only external impact will be the installation of a small number of discreet air extraction grilles at ground floor level, positioned at street level. These will be carefully integrated to minimise visual and physical impact on the listed façade. Overall, the works aim to enhance the hotel's guest offering by introducing modern wellness facilities, all within the existing footprint of the building.

Has the development or work already bee	an etarted without concent?

Biodiversity net gain	
Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.	
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.	

**Trees and Hedges** 

the Town and Country Planning Act 1990 (as amended)) would apply?
○ Yes ⊙ No
Biodiversity net gain has been introduced as a general condition for planning permission. As set out in <u>The Environment Act 2021</u> : "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.
If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).
You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons
Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one
Reason biodiversity net gain does not apply:  Development subject to the de minimis exemption (development below the threshold)
What best describes the size of your site?:  Over 25 square metres
Please justify the reason why biodiversity net gain does not apply:  This application does not fall within the scope of Biodiversity Net Gain (BNG) requirements, as the proposed works are entirely internal and involve no changes to external landscaping or undeveloped land. The project does not impact any natural habitats or greenfield areas and therefore does not trigger the need for a BNG assessment under current planning regulations.
Note: Please read the help text for further information why developments may be exempt or not in scope.
