Available **Free-standing** or **Lean-to**

Louvre Pod®

Open Space Concepts' Louvre Pods® are an ensemble of a linear and elegant design. The remote controlled blades in the roof provide you the choice to rotate them up to 140 degrees adjusting your requirement of sunlight and air circulation. In case of rain, the blades can be closed completely for total protection, allowing water to drain along the perimeter gutters which are seamlessly integrated within the structure.

Max width is 6m on 4 posts

Maximum projection is 4.5m

Remote Controlled Roof Blades

LED Spot Lights

Glass Sliding Doors

LED Perimeter Lighting

Remote Controlled Screens
