2025/0759/P	David Panter	Flat 2 Earlham House 35 Mercer Street London WC2H 9QS	10/04/2025 21:32:25	OBJ	Please don't let this terrace be used so late. 19:00 is already late for people to be drinking and making a noise after work in an open area very close to our flats and overlooking us. There are plenty of pubs and other places nearby for them to go after that. Why do they need to be outside here so late?
2025/0759/P	M. Bruce	7 Earlham House 35 Earlham St. London WC2H 9QS	11/04/2025 00:32:50	OBJ	<p>Our family lives just behind this building. In January we objected to the changes to the building because of the bad effect they would have on our lives.</p> <p>We pointed out that the open space under our building and this one is not suitable for lots of activity from people coming in and out at all hours because noise down there can be heard in our flats. A lot of people out on terraces will ruin our privacy and be noisy as well. At the moment the small terrace at the back is hardly used because it's not very nice, but there have been occasions when occupiers of the offices have been out there and have not behaved very well. We pointed out that it would be very unpleasant if another, bigger terrace was built overlooking us. People can see straight our kitchen windows from there and we can hear noise that they make.</p> <p>The council still gave planning permission for the changes, but at least it was on the condition that people were off the large terrace by 7pm. Now the developers want to have people up there until 8pm. This is not fair.</p> <p>Some people in our building need to get to bed by 8pm. I am in my kitchen after 7pm and don't want to be watched or disturbed. This is the back of your building, not the front. The front is very busy and we know that, but we need peace and privacy at the back.</p>
