Biodiversity and Geological Conservation
Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?
To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.
a) Protected and priority species
 ○ Yes, on the development site ○ Yes, on land adjacent to or near the proposed development ⓒ No

b) Designated sites, important habitats or other biodiversity features
○ Yes, on the development site○ Yes, on land adjacent to or near the proposed development⊙ No
c) Features of geological conservation importance
○ Yes, on the development site○ Yes, on land adjacent to or near the proposed development○ No
Supporting information requirements
Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.
Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.
Your local planning authority will be able to advise on the content of any assessments that may be required.
Biodiversity net gain
Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.
Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in <u>Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)</u>) would apply?
○ Yes ⊙ No
Biodiversity net gain has been introduced as a general condition for planning permission. As set out in <u>The Environment Act 2021</u> : "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.
If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).
You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons
Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one
Reason biodiversity net gain does not apply: Development subject to the de minimis exemption (development below the threshold)
What best describes the size of your site?: Over 25 square metres
Please justify the reason why biodiversity net gain does not apply: Development does not impact a habitat
Note: Please read the help text for further information why developments may be exempt or not in scope.

Design/ heritage (Rear extension): The previous proposals involved a wraparound extension that visually cut the upper floors from the garden level. A proposal that splits the mass into two elements works better. The proposed extension would be similar in appearance and form to the approval at 7 Well Road. The proposed lightweight appearance with a thin roof structure is appropriate to the garden setting, and due to the topography, surrounding trees and orientation of neighbouring buildings will not be particularly visible from the surrounding area. However, more work is needed on the design so that it better references the vertical proportions of the rear elevation, which features a rear wing and vertical bay. The proposed rear extension would not add significant bulk or massing and would be subordinate to the host property while retaining a reasonably sized garden.
Design/ heritage (Side extension): The proposed new side extension, due to its height below pavement level, would respect the established streetscene and would not infill the townscape gap, visible from the public realm, which is generally consistent along this side of Well Road. The proposed green roof would help mitigate any visual impact from Well Road, where it would be seen in the context of the rear garden. Due to its setback from the eaves and its location, it would be a subordinate addition, however it should be set further back from the rear elevation, to better expose the original building form. The use of timber for this part could work well, as tonally it could be similar to the red brickwork.
Amenity impact: The extension and garden room would cause no harmful amenity impact through issues like loss of light or excessive overlooking as there are sufficient distance between properties, and there is an existing rear extension on the neighbour at no. 7 Well Road and no new openings proposed.

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

Other comments: There is no issue with the principle of installing the terrace to the first-floor level. However, it is suggested not to be dark

metal railing.

Authority Employee/Member
Nith respect to the Authority, is the applicant and/or agent one of the following: a) a member of staff b) an elected member
c) related to a member of staff d) related to an elected member
t is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
