**Dear Planning Department,**

**I am the owner of a Grade II listed building in Belsize Lane, the curtilage within which the two London Plane trees referred to in the above planning application are located.**

**The planning application is to fell both trees to the ground.**

**Given the importance, size and quality of these trees, I would like to object to the application and ask for a temporary TPO to be put into place with immediate effect.**

**I would be happy for an Officer to visit the property to inspect if that would be helpful.**

**Best regards**

**Neil**
